HANDBOOK PREFACE

- Students and parents are to familiarize themselves with the handbook, code of conduct and department protocol in order to ensure the safety and well-being of all participants and to prevent any misunderstandings during the course of the school year.
- Prospective participants are reminded that the sports/activities are competitive, designed to serve those students who meet, and continue to meet, high standards of skill, performance, self-discipline, sportsmanship and conduct.
- Student athletes are always required to strive and maintain academic excellence.
- Students are to be aware that participating on an ACS sports team is a **privilege, not a right**.
- It is understood that athletes and athletic programs are an important partner in the educational process. Very few of our athletes will be participating in team sports after their high school careers; they must take something with them other than ability. What they take with them will depend on their coach. High standards, fair-play, discipline, protocol and clear expectations will allow our students to have a positive learning experience.

MISSION, PURPOSE & PHILOSOPHY

American Community School Beirut Athletic Program – Purpose

- The purpose of our After-School Program at the American Community School Beirut is to foster the social, emotional, physical and moral development of the student participant.

American Community School Beirut Athletic Program – Philosophy

The extracurricular athletic program is vital to the educational, physical, emotional and ethical development of a student. The athletic program plays an important role in the life of the ACS student. Athletic activities support the academic mission of the school.

- ACS sport promotes a high level of integrity, commitment, cooperation, responsibility, accountability, self-control and self-discipline from its students and coaches.
- ACS sports are competitive, designed to serve those students who meet, and continue to meet, high standards of skill, performance, sportsmanship and conduct.
- Students have the opportunity to improve personal fitness and motor-skill levels, and the development of social, emotional and mental attitudes.
- Coaches have the opportunity to achieve a wider scope of educational and developmental goals through the additional learning opportunities that occur when working with students in extracurricular activities.
- Student athletes are to represent themselves, parents, their team, coaches, school parents and with the highest level of respect and integrity. Teammates are to hold each other accountable and be role models for all, young and old.
- It is not now, nor has it ever been, the Athletic Department's policy to win at all cost.
