

ISEE Information

Applicants for Grades 6 – 12

To simplify the admission process for parents and students, the [ISEE Online Guide](#) will provide you with information about the test and how to register your child online.

- Students must register in advance for the test.
- We encourage students to register for the ISEE at a prometric center as early as possible.
- Students may take the test at any site.
- Students taking the ISEE after February 28, 2019 will not be considered in the regular applicants' pool.
- To have scores reported to ACS Beirut, enter ACS Beirut as the school name on the registration form and ERB will mail test results to parents likewise, as explained in the Online Guide.
- If a student tests more than once in a 12-month admission cycle, ACS requires that all scores be submitted.

** Test results are just one factor we consider when acquiring an academic profile of each applicant.*
